

Aeron® Chair

Ergonomic to the core, Aeron was designed for all types of human bodies. For almost 30 years, we've been perfecting it so that it's not only good for your body, but good for our environment too. Now made with ocean-bound plastic, it's the exact same chair made more sustainable.

Aeron is available in a palette of four meticulously curated material expressions. Each component was thoughtfully designed, creating a fundamentally harmonious colour palette, highlighted by our darkest shade, Onyx.
