

Alvar-LITE

HermanMiller

A height adjustable range of desking that gives you the FREEdom to work at your best.

- Flexible** - Variation of mechanisms, leg styles and shapes.
- Radical** - The user has the control.
- Ergonomic** - A new healthier approach to the way we work.
- Easy** - Easy to use
Simple to order, install and understand.

Flexible

Alvar-LITE's range of adjustable desks - offers various mechanisms such as: fixed, incremental pin, two ranges of crank and two ranges of electric. It also includes five styles: rectangular, single wave, double wave, 90° corners and 120° corners. Designed to give a clean aesthetic and offered in an array of finishes. Two leg styles - round and square. Tops come with two scallops and a 15mm flashgap between scallops to allow for wire management access to the desk top as standard.

Desks are independent, but designed to blend well with Herman Miller's existing product ranges and have the capacity of integrating with Abak Environments our largest selling furniture range.

Radical -

The office is changing to meet the needs of 21st century work. Throughout this evolution of our offices, constants remain. Alvar-**LITE** gives organisations and the user, the ability to embrace technology to optimize the opportunity for a healthier interactive approach to work.

Ergonomic -

User adjust
Alvar-**LITE**'s technically advanced crank mechanism allows the user or facilities manager to adjust the workstation positions quickly and efficiently with minimum effort so that a desk can be shared between two users no matter if they are 6ft or 4ft tall.

Easy -

- Easy to use
