

BODYBILT J2509

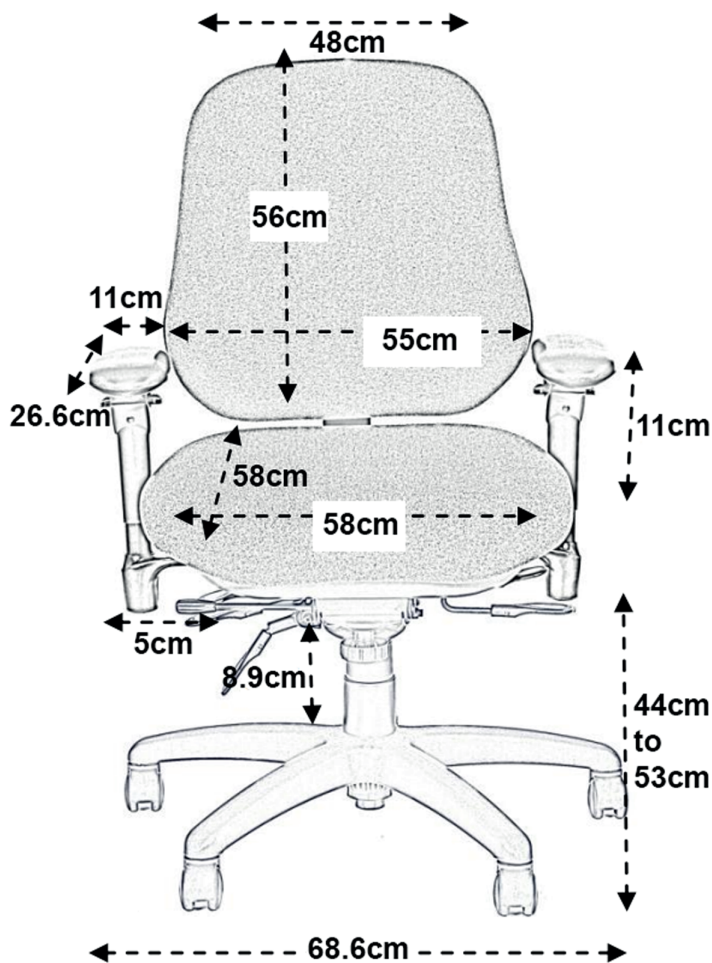

The BodyBilt J2509 is a unique seating solution specially designed with tall users in mind and is able to fit individuals over 6 feet tall.

- Unique 10-point posture control allows control over level of comfort.
- High backrest to provide support for the upper back, shoulders and neck.
- Reinforced, minimal contoured seat, longer and narrower than standard seat.
- Adjustable seat height and seat depth adjustment.
- Seat tilt and tension control.
- Adjustable armrests with height, width and angle adjustments.
- Adjustable backrest with height, depth and angle adjustments.
- Air Lumbar Pump® to optimise support on lower back support to alleviate discomfort associated with stretched ligaments, muscle fatigues and pinched disc.
