SATRA TECHNOLOGY

Test Certificate

Orangebox Ltd

The 'RD243 (Project)', supplied for testing by Orangebox Ltd, has satisfied the relevant requirements of BS 5459-2:2000 + A2:2008 – Specification for performance requirements and tests for office furniture – Part 2: Office pedestal seating for use by persons weighing up to 150 Kg and for use up to 24 hours a day, except for Clauses A.7.5, A.7.6, A.8, 5.1 and Clause 5.2.

SATRA Report: FUR0279841 / 1902

Date of report: 20 May 2019

Signed:

(G. R. Bindley)

NOTES: This certificate must be read in conjunction with the report referred to above.
The results of these tests are only applicable to the test sample submitted for testing.
This test certificate does not guarantee ongoing conformity of production.
(SATRA's standard terms and conditions apply).

TERMS AND CONDITIONS

Tested products/materials will be kept at SATRA for a limited time and then either returned to clients (at their cost) or will be destroyed.

Test Certificates can be provided to supplement test reports. Please request these and quote the test report number and the product/material reference.

Test Certificates relate to test reports and evaluations carrying the same SATRA CQ number and no others.

SATRA's General Terms and Conditions apply to both test reports and certificates.

Further information on the test methods, specifications used, test results and evaluations are given in SATRA test reports, or are available upon request.

Any wording used to promote products as a result of SATRA test reports and/or certificates must be submitted to SATRA for approval, giving sufficient time to allow for clearance in writing.

Tests carried out to demonstrate the ability of the product or material to perform satisfactorily in its intended environment do not ensure that failure will not eventually occur as a result of habitual misuse or after a long period of service.

Flammability test results relate only to ignitability of the combination of materials under the particular conditions of tests; they are not intended as a means of assessing the full potential fire hazard of the materials in use.

Flammability test results can only be applied to the batch of materials submitted for test. It is recommended by many Fire Officers and Trading Standards Officers that test results and certificate are renewed annually through re-tests.

SATRA Furniture – Fitness for Purpose Guidelines and SATRA Test Methods may be used where appropriate. Such occasions may include instances where there is no European or International standard that is appropriate. SATRA Guidelines and Test Methods reflect the current state of knowledge and are constantly being reviewed.
