

JAW™

colebrookbossonsaunders

Simple and elegant design

- Fitting to the underside of the desk, Jaw allows the CPU to 'float' for improved office aesthetics and practicality.
- Visually elegant yet bold, it enhances any workspace environment.

Strong and durable composition

- Made from die cast aluminium, Jaw fixes to the top and bottom of the CPU easily and securely.
- Jaw keeps the CPU out of the way and free from damage, whilst facilitating better performance through improved ventilation.

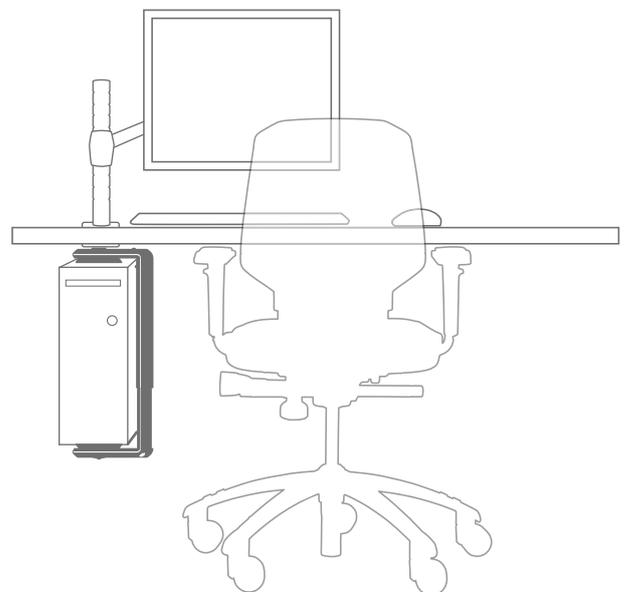

Ergonomic storage solution

Creates space...Jaw frees up space under the desk for greater productivity and comfort for the user.

Easy to use...When combined with a slide and rotate kit, the unit can be pushed further under the desk and out of the way, and can be brought forward for easy access from chair level.

Jaw technical specifications...

- Maximum weight 25 kg/55.11lb
- Min. size CPU 290 x 90 mm Max. 510 x 240mm
