

swoppster Pretty clever.

1) **3D technology:** Gives you flexible sideways movement, extends your reach and ensures an optimum sitting posture with respect to the desk.

2) **Vertical movement:** Relieves the intervertebral discs and stimulates the blood circulation.

3) **Convex seat:** The shape of the seat encourages a free and upright posture and prevents pressure points at seat edges.

4) **Sturdy base ring:** Extremely stable with no danger of toppling. Rollers and fixed feet are included.

Setting options

- Seat height (gas spring)
- Weight (spring hardness / up-and-down movement)
- Flexible sideways movement

Many advantages. Simply good.

- Acts against static and rigid sitting
- Improves sitting posture
- Relieves and strengthens the back
- Strengthens and exercises muscles
- Supports blood circulation and the supply of oxygen
- Keeps kids alert and happy!

swoppster

Always right!
